

LTV EAUCTIONS

This product is a transactional solution of auctions based on a catalogue that allows to have an Internet site from which to administer and show information in a form of pages, news, frequently asked questions and mainly allows to administer and publish a catalogue of items (products, services and/or contents) from which to generate transactions (auctions, sales, etc.) on-line.

This Product has two modes:

- LTV EAUCTIONS that due to its format can be embedded into an already existing site.
- LTV EAUCTIONS FULL that allows to adjust to a new and independent site.

Principal Characteristics of LTV EAUCTIONS:

- Can be integrated into an already existed site
- Catalogue Manager
- Editorials Manager
- E-auctions platform
- Statistics of visits

Principal Characteristics of LTV EAUCTIONS FULL:

- Content Manager
- Content Manager
- Manager of news and frequently asked questions
- Catalogue Manager
- Editorials Manager
- E-auctions platform
- Statistics of visits

Beneficios del LTV EAUCTIONS

- ✓ Administered on-line, from any computer with an Internet access, via Back-end of an easy management (Control Panel).
- ✓ Allows for a general modification of design and appearance (Look & Feel) and generation, modification, and downloading independently of a third party.
- ✓ Does not require a programming knowledge to generate and administer contents.
- ✓ Ideal to show an item catalogue (products, services and/or contents) in a general and permanent form on-line (7x24) allowing that way to save on costs of emission and diffusion of waste material or material left for future auctions.
- ✓ Allows to administer a base of registered clients and generated transactions, manage messages (emails) automatically during different stages of the interaction.
- ✓ Can be integrated into different modes (catalogue, users, transactions, etc.) with internal systems of management.
- ✓ Can be scaled to all of the Package of Products based on LTV Technology®.
